Technology

GT Quartz™ Nano Ceramic Coatings are based on Nano technology, simply stated very small particles. To be exact, 1 billionth of a meter or smaller. Made from a base of Polysilazane which has been uniquely synthesized to form the strongest, clearest and glossiest layer of SiO_2 available in today's coatings market. Silicon Dioxide is most commonly found in nature as Quartz. GT Quartz™ creates a molecular or (covalent) bond with the applied surface. The fact that it has been made in Nano scale allows it to fill in the microscopic pores in your factory clear coat. What does all this mean? It means Nano ceramic coatings create a strong protective surface that is semi-permanent, super hydrophobic and glossy.

GT Quartz™ SELECT 3 Year Paint Protection

The Nano Ceramic paint coating provides protection for up to three years. GT Quartz™ Select proves itself to be resistant to road salts, while providing protection from dirt, tar, bugs and bird droppings.

GT4050 Size: 50ml

GT4025 Size: 30 ml

Warranty: 1-3 Years

GT Quartz™ GLISTEN 5 Year Paint Protection

Use on paint and exterior plastic/vinyl trim. GLISTEN™ and GLISTEN™ with GRAPHENE are a 5-year+, 9H+, 'stand-alone' coating with high levels of Gloss, Hydrophobicity, UV Protection and Scratch Resistance that bridges the gap between GT QUARTZ™ SELECT and GT QUARTZ™ PROFESSIONAL Coatings. GLISTEN™ and GLISTEN™ with GRAPHENE offers extended working time and a 5-year Warranty when applied by a certified application center.

GT5550, GLISTEN Size: 50ml

GT5650, GLISTEN w/GRAPHENE Size: 50ml

Warranty: 5+ Years

GT Quartz™ PROFESSIONAL 5-7 Year Paint Protection

An advanced Nano Ceramic Coating for painted surfaces that provides seven years of protection. The 9H hardness proves to be extremely durable, while providing all benefits of GT Quartz™ Select. GT Quartz™ Professional is available to Authorized Application Centers.

GT6050 Size: 50ml

Warranty: 5-7 Years

GT Quartz™ TITANIUM

10 Year Paint Protection

GT Quartz™ Titanium a two step ultimate paint coating. Enriched with titanium, a strong, crystal-like 9H+ hardness is created. The titanium formula provides the highest amount of resistance and protection from everyday elements, while offering the deepest depth of gloss. This Nano Ceramic Coating is only available at our elite Gliptone® Authorized Application Centers.

Step 1

Step 2

GT8050-1 & GT8050-2

Size: 50ml

Warranty: Limited Lifetime

GT Quartz™

TOTAL PROTECTION KIT

Also Includes:

1 Foam
Applicator
7 Suede
Cloths

50ml x 2

30ml x 5

GT Quartz™ Total Protection kit features the complete range of Nano Ceramic Coatings for all the surfaces of your vehicle. This kit includes GT Quartz™ Titanium, GT Quartz™ Wheels/Rims, GT Quartz™ Glass, GT Quartz™ Vinyl-Plastic-Trim & GT Quartz™ Leather (2 pcs.). This kit is packaged in an luxurious attractive display box and includes a collectible lead crystal engraved paper weight along with applicator cloths. The GT Quartz™ Total Protection kit is only available at our elite Gliptone Authorized Application Centers.

GT80531

GT Quartz™ GLASS

When applied, the coating creates a hydrophobic surface causing water to bead. The water beads easily roll off, improving visibility. Grime, dirt and ice will no longer stick to the windshield and windows, keeping the glass clean longer.

GT5050 **Size:** 50ml

GT Quartz™ RIMS/WHEELS

Coating will keep rims/wheels clean and looking newer for longer, while preventing road film and brake dust from permanently bonding to the surface. Like the Nano Ceramic Paint Coatings, the water beads off giving it self-cleaning properties taking dirt with it, creating a self-cleaning effect. GT Quartz™ Rims/Wheels is safe to use on brake calipers to keep your entire wheel looking its best.

GT3550 **Size:** 50ml

GT Quartz™ LEATHER

A protective coating that will keep leather clean longer, by reducing the amount of grime and dirt that becomes embedded in the leather. The hydrophobic surface created by the coating allows liquid spills to bead up resulting in an easier clean-up. The UV protection helps to prevent fading. This advanced formula also keeps leather soft, and supple.

GT1650 **Size:** 50ml

Warranty: 1-2 Years

GT Quartz™ VINYL-PLASTIC-TRIM

Prevents fading and discoloration on all vinyl and plastic exterior surfaces. GT Quartz™ Vinyl-Plastic-Trim protects from UV rays and also causes the water to bead off, providing self-cleaning abilities. Also very effective on interior vinyl and plastic surfaces.

GT4350 **Size:** 50ml

GT Quartz™ GRAPHENE BLACK- Trim Restoration

For exterior plastic and vinyl trim. Creates a hydrophobic surface that restores color and protects with UV and soil resistance. For Exterior Use Only.

Before

After

GT4250 **Size:** 50ml

GT Quartz™ Industrial GLASS

Formulated to improve driver visibility and longevity of wiper blades. This formula imparts hydrophobicity and lasting protection of (1 year+). For use on all exterior glass surfaces.

GT72120 **Size:** 120ml

GT Quartz™ Industrial RIMS/WHEELS

Extremely durable, hydrophobic, high heat and scratch-resistant coating that helps maintain clean wheels for extended periods of time and aids in ongoing maintenance.

GT73120 **Size:** 120ml

GT Quartz™ Industrial SELF-LEVELER™ SURFACE COATING

For use on exterior paint, plastic & vinyl trim, and metal surfaces. Avoid glass. Durable 5+ years protection. High gloss, soil, UV and graffiti resistance. Excellent hydrophobicity, and scratch-resistance at 9H+ hardness rating. This formula has the ability to restore 'chalky' or faded painted and plastic surfaces to a revitalized, glossy finish. Use for commercial vehicles, transit buses, trains, farming, marine watercraft, construction, and mining equipment and fuel pumping stations.

GT57120 **Size:** 120ml

GT Quartz™ Industrial TRIM

Formulated to improve depth of color, impart hydrophobicity, UV protection and overall longevity at 1 year+ under the harshest of conditions. For use on exterior vinyl, plastic and rubber trim surfaces.

GT71120 **Size:** 120ml

GT QUARTZ™ RV/TRUCK & TRAILER KIT

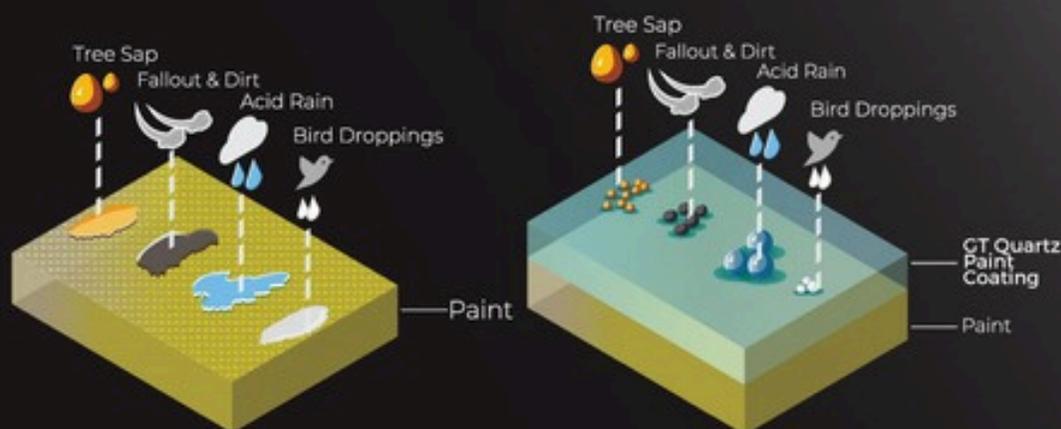

GT74120

GT QUARTZ™, RV, TRUCK AND TRAILER KIT includes our four piece INDUSTRIAL coating line up: Glass Coating (120ml), Rim Coating (120ml), Self-Leveler™ Surface Coating (120ml) and Trim Coating (120ml). In addition to eight Softouch™ Microfiber Sponge Applicators.

x8

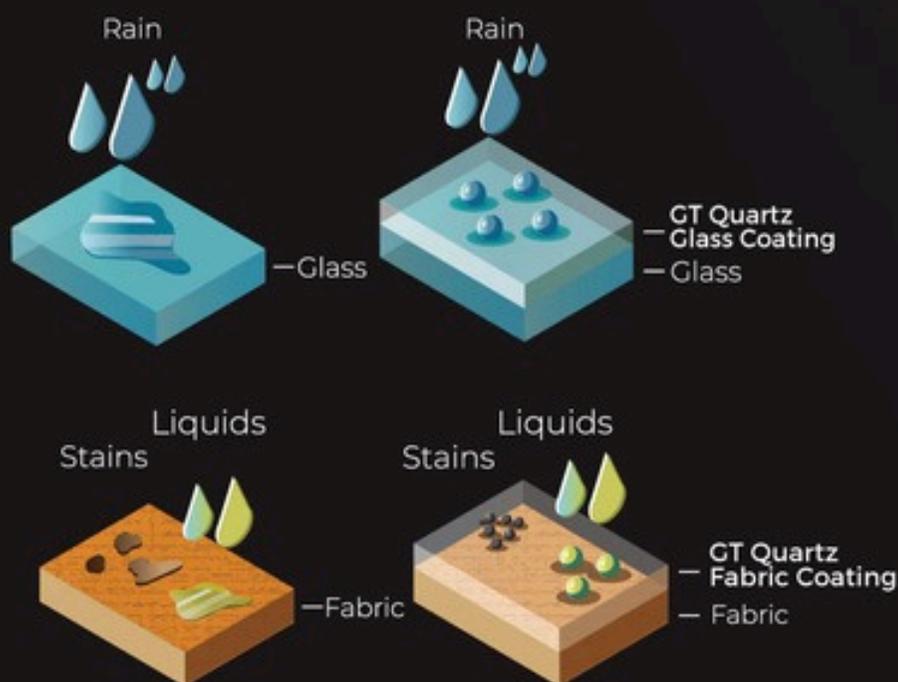

Paint In Microscopic View

Nano Ceramic Coatings fill in the microscopic pores on a vehicle's surface which can hold contaminants such as water, dust, oil, road salt and other minerals.

Protects from Environmental Erosion

GT Quartz™ Nano Ceramic Coatings are also available for Marine, RV & Aviation applications.

GT Quartz™

SiO² Enhanced Coating Treatments

OMNI-BOND™ 50ml - GT4550

OMNI-BOND™ w/ GRAPHENE - 50ml - GT4650

This Paint Coating is a unique formula that bonds as a 1-2 year, 'standalone' coating, or as a 'Topper' capable of bonding to previously coated surfaces. Use on paint and exterior plastic/vinyl trim surfaces. No Warranty as a 'stand-alone coating' but is encouraged as a substitute for GT Extender™ for annual re-coats ('fresh-ups', etc.).

Part of the
GT Quartz™
"Refresh
Program"

GT EXTENDER™

16 oz. GT4216 · 1 gal. - GT4201

Best when used immediately following the patent pending Precision Clenz™ Decontamination Wash System. Helps extend the life expectancy of the existing coating and restores the hydrophobic effects back to its original level. Formulated to contribute SiO² nano material to the existing coated surface, making it the perfect product for a vehicle refresh. This formula is not intended to be used in place of a GT Quartz™ Coating product and offered as a "warrantable" product or service. However can be used on non-coated or previously waxed surfaces as a stand-alone gloss enhancer and protectant.

HYBRID CERAMIC TREATMENT

Dilutes 60:1

1 gal. - GT49601 · 5 gal. - GT49605 · 55 gal. - GT49655

Great for Cars, Trucks, Trailers & RV's. Deposits lasting residual SiO² protection, with a simple spray & rinse application process. Creates a slick surface, resistant to debris and the elements.

HAND APPLIED CERAMIC TREATMENTS

SiO²
Enhanced

CERAMIC DETAIL SPRAY

16oz GT2416 • 64oz GT2464 • 1 gal GT2401 • 5 gal GT2405

A super-hydrophobic and durable SiO² surface coating. Provides mild cleaning action, and extreme gloss while creating a super slick, long lasting coating with a barrier resistant to debris and the elements.

#1 Rated Detail Spray
featured in PRO DETAILER MAGAZINE

GRAPHENE DETAIL SPRAY

16oz GT2516 • 1 gal GT2501

A super-hydrophobic and durable Graphene Oxide surface coating. A simple spray and wipe application provides mild cleaning action, and extreme gloss while creating a super slick, long lasting coating with a barrier resistant to debris and the elements.

CERAMIC SOAP

16oz GT3916 • 64oz GT3964

A highly concentrated SiO² enhanced washing solution blended from gentle cleaning agents, water softeners and infused with a uniquely modified chemistry to leave residual SiO² protection on the surface. When used with a foam cannon produces a rich lather that lifts surface dirt, helps revitalize color, and produces a clean, bright finish leaving a durable protective coating. Will not streak and is very effective in the reduction of water spotting.

CERAMIC INTERIOR DETAILER™

16oz 2316 -1 gal GT2301 -5 gal GT2305

A professional grade SiO₂ enhanced, non-greasy, formula that is safe and effective on vinyl, plastic, rubber, wood grain and painted interior panels. Removes dirt and film, while providing lasting protection and leaving a 'Natural Look Finish'.

CERAMIC WHEEL & RIM DETAILER™

16oz 3316 -1 gal GT3301 -5 gal GT3305

A more advanced, high heat resistant polymer that deposits "nano sized" SiO₂ particles onto the substrate. A semi-permanent, detergent and grime resistant coating barrier is formed which protects against Oxidation, Winter Brine, Road Salt, and permanent staining from Brake Dust.

CERAMIC TEXTILE DEFENDER™

16 oz. - GT74016 · 64 oz. - GT74064 1 gal GT74001

High quality nano ceramic coating for all fabric, upholstery, carpets and soft-top/cabriolet roof materials. Also excellent for clothing, shoes, gloves, furniture and much more! Provides maximum protection from UV damage, wear and spills for up to 12 months. The hydrophobic effect will not allow liquids to absorb into the surface, making clean-up easy. (Not for use on suede or leather)
